FRAMEwork Seating Designet af Nørgaard Design

FRAMEwork Seating, som er designet af Nørgaard Design, er en polstermøbelserie, der deler DNA med vores FRAMEwork opbevaring og skaber komfort på kontoret. Den modulopbyggede serie gør det nemt at tilpasse siddepladser til forskellige behov. Med et udvalg af moduler, der kan kombineres, tilbyder serien alt fra åbne siddeområder til mere afskærmede opstillinger.

Designet er enkelt og stilfuldt med stel i sort eller hvidt metal og polstrede moduler i op til 10 tekstiltyper. Serien leveres med koblingsbeslag, og modulerne er designet med et mellemrum mellem ryg og sæde for at forhindre ophobning af skidt.

FRAMEwork Seating Designed by Nørgaard Design

FRAMEwork Seating, which is designed by Nørgaard Design, is an upholstered furniture series that shares the DNA of our FRAMEwork storage solutions, creating comfort in the office. The modular design makes it easy to adapt seating arrangements to various needs. With a selection of modules that can be combined, the series offers everything from open seating areas to more secluded setups.

The design is simple and stylish, with a frame in black or white lacquered metal and upholstered modules available in up to 10 fabric types. The series includes connecting brackets, and the modules are designed with a gap between the backrest and seat to prevent dirt buildup.

Nørgaard Design

Anders Nørgaard og hans team hos Nørgaard Design har i over 25 år skabt møbler, der perfekt balancerer æstetik og funktionalitet. Med rødder i skandinavisk designtradition er deres løsninger enkle, men alligevel sofistikerede, hvilket gør dem ideelle til en bred vifte af miljøer. Sammen med Dencon udvikler Nørgaard Design møbler, der passer ind i ethvert kontormiljø, fra elegante konferencelokaler til praktiske arbejdsstationer, hvor både form og funktion prioriteres.

For over 25 years, Anders Nørgaard and his team at Nørgaard Design have created furniture that perfectly balances aesthetics and functionality. Rooted in Scandinavian design traditions, their solutions are simple yet sophisticated, making them ideal for a wide range of environments. Together with Dencon, Nørgaard Design develops furniture that fits seamlessly into any office setting, from elegant conference rooms to practical workstations, where both form and function are prioritized.
